Short-term liabilities	1,972,841	1,203,096
	29,924,866	29,370,471

The UvA Fund invests its assets to remain financially sound, so that we can continue to allocate funds in the long-term and make an impact through our expenditure. The investment portfolio's risk profile is moderately defensive, with a green investment profile. The UvA Fund does not invest in arms or the fossil fuel industry. In 2025, a positive return of 4,38% was achieved on the investments.

Thanks to donations received from private individuals, charities and companies, and the return on investments, a total of €2,1 million in grants was awarded in 2025. This is slightly higher than the €2 million budgeted for the year. As a result, the UvA Fund was able, amongst other things, to award 56 Talent Grants to students and early-career researchers.
